

# Compare the benefits of *Aprilaire whole-home air cleaners.*

Aprilaire®

Models 2210/2410 Air Cleaner

Model 2210

Model 2410

## Benefits no portable room purifier can match.

- **Healthier home environment** — Permanently traps pollen-sized particles, helping to minimize the risk of asthma and allergy attacks. Permanently traps mold spore particles (3 microns and larger) at a rate of 85%.
- **Long service life** — The disposable filter media lasts 1–2 years, so there is no need for monthly or bi-monthly filter changes or cell cleanings.
- **High quality and completely reliable** — Aprilaire Central Media Air Cleaners feature a 5 year warranty and require no maintenance other than the replacement of the filter media once every 1–2 years.

## Get green with greater comfort from Aprilaire

Whether you're updating your home to be more healthy, energy-efficient and sustainable or you're building a new green-certified home, Aprilaire offers a complete line of innovative products designed to improve the quality of indoor air. **Our central air cleaners treat your entire home by permanently capturing harmful contaminants like bacteria, mold spores and allergens. High efficiency air cleaners help qualify your home for the Green-Built Certification Program of the National Association of Home Builders.**

Aprilaire offers a full-line of comfort accessories to improve the quality of air throughout your home.

Ask your dealer about other best-in-class innovations designed for quality, performance and reliability, including:

Humidifiers • Dehumidifiers • Zoned Comfort Control™ • Thermostats • Ventilation

## Turn your central heating and cooling system into a *whole-home air cleaner!*

# Think your indoor air is safe? *Think again.*

## The EPA names Indoor Air Quality (IAQ) as one of the top five environmental risks.

Environmental Protection Agency sources indicate we spend approximately 90 percent of our time indoors. And the air inside can be up to 100 times more polluted than the air outside. Airborne contaminants live with you in your home every day. Dust mites, molds, fungi, spores, pollen, bacteria, viruses, fragments of plant materials, dander—all are suspended in the air you breathe. Fortunately, there is a solution: Aprilaire air cleaners. Unlike portable units, the Aprilaire media whole-home unit cleans the air in your entire house, removing harmful particles.

Aprilaire media air cleaners permanently trap particles, including airborne contaminants down to 1 micron (one-millionth of a meter) in size. Particles less than 6 microns are invisible to the naked eye and allergy-causing pollen particles and mold spores range from 5 microns to 1 micron.

## You Should Know: Indoor Air Quality Facts From The Experts.

The average American breathes 3,400 gallons of air each day, making ambient air pollution a major environmental problem.

— American Lung Association

Asthma is the most common serious chronic disease of childhood and accounts for one-third of all pediatric emergency room visits, more than 200,000 hospitalizations (ranking third among children under 15) and 14.7 million missed school days annually.

— U.S. Environmental Protection Agency

There are an estimated 42.6 million Americans living with hay fever and/or asthma. Eighty-seven percent of American homeowners are not aware that pollution may be worse inside their homes than outdoors.

— American Lung Association

Three most important methods of improving indoor air quality are source removal, air cleaning and increased ventilation.

— U.S. Environmental Protection Agency

## Choose an installed whole-home solution.

- **Whole-Home Cleaning** — Aprilaire air cleaners treat the air throughout your home. You'd have to put a portable air cleaner in every room to match that kind of performance.
- **Energy Savings & Protection** — Keep dust and dirt from reaching your heating and cooling equipment, allowing it to perform at peak efficiency for the entire life of the filtering media, reducing your maintenance costs.
- **Silent Operation** — Installed with your heating and cooling equipment, Aprilaire whole-home air cleaners are out of sight. And they operate silently with no annoying hums or crackling sounds.
- **Simple Maintenance** — Replace filtering media every one to two years with minimal effort.
- **Built to Last** — All Aprilaire air cleaners are designed to deliver the same high performance year after year. And they all come with a 5-year warranty.
- **Best Indoor Air** — Permanently traps indoor allergens that can lead to respiratory problems. A High Efficiency\* MERV 10 filter with Self Seal™ means the air in your entire home gets filtered.

Aprilaire whole-home air cleaners are installed as part of your home's heating and cooling system. They clean the air by pulling it from every room in your home through the return ducts, filtering it and sending clean air back to your home.

### Particle Size (in microns)

0.3 to 1.0    1.0 to 3.0    3.0 to 10.0

Removal efficiency	NA	50%	85%
--------------------	----	-----	-----

PET DANDER	MOLD SPORES	FUNGI	POLLEN
			
.5 microns and larger	.5 microns and larger	2 microns and larger	7 microns and larger

\* tested according to ASHRAE 52.2 standard
