

T841A Easy-To-See™ Heat Pump Thermostat

TRADELINE®

HOMEOWNER'S GUIDE

Features of Your New Thermostat

- Enlarged, raised numbers make temperature setting easy by touch or sight.
- Audible click is heard and indent is felt every two degrees as the temperature setpoint lever is moved.
- Temperature setpoint lever lets you choose temperature settings from 46°F (8°C) to 84°F (29°C).
- Enlarged, raised letters aid in setting system switch and fan settings.

Temperature Selection

To select the temperature setpoint, slide the lever to the desired point on the setpoint scale. A click is heard and an indent felt every two degrees as the setpoint lever moves. The enlarged, raised 5, 6, 7 and 8 on the right edge of the thermostat provide recognition by touch and sight for the 50°F (10°C), 60°F (16°C), 70°F (21°C) and 80°F (27°C) setpoints.

System Switch and Fan Switch Settings

To select system switch and fan settings, slide the levers at the bottom of the thermostat base to the desired setting. Enlarged, raised letters on the wallplate and the audible aid click heard at each indent in setting system switch and fan switch settings. The large EH, H, O and C stand for EM. HT., HEAT, OFF and COOL system switch settings. The large A, O raised letters stand for AUTO and ON fan settings.

NOTE: If the information on this card is desired in Braille, call 1-800-468-1502, Monday-Friday, 7:00 AM-5:30 PM Central time, for a copy.
